### THAT NIGHT, IN TOTAL

|         |          |            |                   |                      |                  |
|---------|----------|------------|-------------------|----------------------|------------------|
| 3       | 2        | 1          | 0                 | 3                    | 0                |
| FLIGHTS | ARRIVALS | DEPARTURES | PASSENGER AIRLINE | PRIVATE AND TRAINING | CLOSE APPROACHES |

Close approach: two aircraft within 3 nautical miles and less than 1,000 feet apart at the same moment, tower closed. Wake turbulence: an aircraft following a heavier one closer than the in-trail spacing a controller would apply. A count in parentheses is how many of those events had a passenger airline on at least one side.
